

## Pat Donohue - Out on the Road to Kingdom Come

E E7

Out on the road last night

A E

I saw a terrible fight

E E7 B7

Something 'bout who was right and who was wrong

E

Nobody cared who won

A E

We all had our fun

E B7 E

Out on the road to Kingdom Come

On up along the rise

They're selling truth and lies

Whatever the buyer buys the truth becomes

Til it don't matter none

It's look out for number one

Out on the road to Kingdom Come

A

Out on the highway side

E

Over the great divide

E E/Eb E/D C#7 B7 Fm7 - B

Knowing the endless night is just begun

It's such a lonesome drive

How can a soul survive

Out on the road to Kingdom Come

I saw a love so great

I saw the strongest hate

I felt the awful weight of choosing one

I saw Hope and Despair

Playing Truth or Dare

Out on the road to Kingdom Come

There's no highway sign

There's no light to shine

You can lose your mind if you have one

You better hope and pray

You can find your way

Out on the road to Kingdom Come

Well so long yesterday

And the lost highway

You can never stay where you came from

Into the Great Unknown

You got to go alone out on the road to Kingdom Come
